Just following on from my previous email.

I read the BAA and looked quickly through the slides. I can see that the focus is on the modelling/transmission – but interesting to note that only Columbia is considering ‘behaviour’ (human and ecological) in their pitch. I always come at these things with social science, and systems, lenses and feel amazed that the human behaviour/exposure component isn’t included.

To: Jamie Pilot <jpilot@sainc.com>

Please refer to the attached Attendee Contact List, Teaming Profiles, and slide presentations from the 30 lightning talk presenters for next week's PREEMPT Proposers Day. There are additional slides included from individuals/teams that requested they be shared with the community in advance of the meeting.

The Proposers Day will take place on Tuesday, January 30 at the Executive Conference Center located at 4075 Wilson Boulevard, Suite 300, Arlington VA 22203. Upon entering the building, please proceed to the elevators to the 3rd Floor (Suite 300).

Please bring a government-issued, photo ID with you to the meeting.

Registration begins at 8:30am on Tuesday and the meeting will begin promptly at 9:00am.

Lunch will be provided for those attendees that paid in advance during the registration process. Unfortunately, it is too late to opt in to this service. For your convenience, I will have a detailed list of local eateries at the registration desk -- most are within walking distance and provide online/advance ordering.

Please visit the [meeting website](#) for up-to-date meeting details and the agenda.

Please contact me if you have any questions.

Thank you,
-Jamie
